

Pat Sloan

Georgia Quilt Council

March 14-17, 2007

www.quiltershome.com

Pat started her needlework career by sewing doll clothes as a child. She grew up to sew her own clothing - until she discovered quilting over 15 years ago. One thing led to another: Pat retired from computer programming to lecture and teach quilting classes, to design fabric lines with P&B Textiles, and to design and publish her own patterns. In addition to designing individual patterns, Pat has written six quilting books and has two more in the works for Leisure Arts.

Pat regularly contributes to *McCall's Quilting*, *American Patchwork & Quilting*, and Fons and Porter's *For the Love of Quilting*.
